Every year since 1970, people around the world have come together to celebrate our planet and support environmental action on April 22. Earth Day 2024's theme is "Planet vs. Plastics." The goal is to end plastics for the sake of human and planetary health, and demands for a 60% reduction in the production of all plastics by 2040.

**Earth Day WOULD YOU RATHER GAME** – This game asks players to choose between two related options. The point of the exercise is to share preferences and find common ground. Plus, sometimes a player must make a difficult decision. This Earth Day version of the game, asks you to choose which option you think is a better way to look after the environment – first option vote with **GREEN**, second option vote with **BLUE**.
